The following is an examiner's statement of reasons for allowance:

Claims 1-9 are allowed because none of the prior art documents discloses or suggests a two step method including a polymerization process and thereafter a chemical oxidation process in the claimed method for manufacturing electrically conductive macromolecules.

Claims 12-13 (new added) are also allowed because the claims embrace the claimed electrically conductive macromolecule layer produced by the method of claim 1.

Therefore, claims 1-9 and 12-13 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
